

PRODUCT DATA SHEET

FRIGO58 SMARTLIFT-CS 1D PREMIUM VFFS

The Frigo58 SmartLift-CS 1D Premium is a single span, fixed bulkhead. The SmartLift balancer system with steel coil springs works in accordance with standard Schmitz Cargobull Multitemp Track. The SmartLift balancer system allows the bulkhead to be easily and quickly repositioned over the length of the trailer. The unlocking mechanism connects the vacuum flap to the floorstopper, allowing it to open with a single hand operation. This Premium version has handgrips recessed and can be retrofitted to Schmitz Cargobull Multitemp trailers.

The Frigo58 SmartLift-CS VFFS will be delivered according to trailer specifications.
